## **FOOD AND BEVERAGES IN DISTRICT SCHOOLS**

### Statement of Purpose

The purpose of this policy is to require the development of guidelines for the consumption of food and beverages in all of the District schools.

### Statement of Policy

The School Board believes it is essential that staff and pupils be provided with reasonably sanitary, healthy, and safe surroundings. Moreover, the School Board wishes to safeguard school property against damage, undue depreciation, or additional maintenance in its effort to insure the safekeeping of school property.

Therefore, each building administrator shall develop guidelines for the consumption of food and beverages and shall designate the appropriate areas for and purposes of such consumption. These guidelines shall be reviewed and approved by the Maintenance/Transportation Committee in April of each year, and shall be included in the student and faculty handbooks.

Exceptions to the above will be made for medical or educational purposes.

Effective: March 19, 2003
