

**INSTRUCTIONAL NEEDS OF STUDENTS
WITH DIFFERENT TALENTS**

STATEMENT OF PURPOSE

The Board recognizes that each student has unique and distinctive learning styles, and that not all students will excel in traditional classroom settings.

STATEMENT OF POLICY

The administration will design the district's instruction and curricular program to meet the instructional needs of students with different learning styles and range of capabilities.

Administrators and teachers should collaborate in planning to address needs of all students.

Administrators and staff should explore alternative learning programs such as extended learning opportunities, alternative learning plans, distance education, vocational/technical education, and other educational approaches as outlined in Policy IF.
