STUDENT TEACHING AND INTERNSHIPS

Statement of Purpose

It is the purpose of this policy to articulate the position of the Sanborn Regional School Board regarding student teachers and interns and to authorize their presence in the district.

Statement of Policy

The school board recognizes both its responsibility to improve the quality of teacher training and the contribution that student teachers and interns can make to the Sanborn Regional schools. Administration is encouraged to cooperate with teacher training institutions and authorizes the placement of student teachers and interns in its schools.

The importance of the teacher training demands that student teachers be placed with experienced teachers on our staff.

1. Teachers must have demonstrated to their principals, a capacity to meet these additional demands. The added responsibility of training must in no way replace or deter from their primary responsibility of educating the students in their charge.
2. The administration is authorized to honor the reasonable rules, regulations, and teacher training guidelines of the sending institution.
2. The administration is authorized to accept or reject student teachers and interns within the framework set forth above and on assessment of the individual school's ability to contribute to the training of new teachers and the effect of their presence on the routine operation of each school.
